

SAFETY PRECAUTIONS

Please follow these safety precautions in order to ensure proper installation and to prevent any bodily injuries and structural failures.

Please note that this unit includes poles and rods that are made out of steel, which can cause bodily injuries and/or damages to the floor if dropped or held in an improper manner during assembly.

1. This unit is designed for use by keeping the poles fixed to the floor and the ceiling. Therefore, it is not safe for children to climb or hang on the unit. Children should be under adult supervision at all times to prevent any injuries.

2. Overloading the unit might cause it to become unstable and either tip or collapse, which may cause serious bodily injury and/or damage to personal possessions.

3. In order to prevent any accidental collapses due to improper care, install the unit, so that it is slightly tilted towards the wall, not perpendicular to the floor.

4. We recommend that you frequently examine the unit for any loose bolts or wobbling.

Please note

The unit may collapse if it is not securely fixed to the floor or if it is installed to a weak part of the ceiling.

Differentiating Between the Poles

The upper poles are thinner than the lower poles. (Make sure the upper poles attach to the ceiling mount and lower poles to the floor mount during installation.)

BEFORE ASSEMBLY

► Remove the white pin by pressing gently on the one-touch button and pulling the pin down.

1 ► Remove the white pin by pressing gently on the one-touch button and pulling the pin down.

Example

Assemble the fixtures (shelf brackets, rod brackets, etc.) at least 4 in. away from the ceiling mount for firm support.

BEFORE DISASSEMBLY

► First, unscrew the safety bolt behind the one-touch button. Press the one-touch button to lower the upper pole. We strongly recommend that you hold onto the upper pole while lowering it by using one hand to hold the upper pole and the other to press the one-touch button.

COMPLETE PARTS LIST

*Check your inventory before beginning installation.

1 Ceiling Mounts (2)

Safety Bolt (Located behind the rod bracket)
Tighten gently by hand after installing the rods

2 Upper Connecting Poles (2)

Upper Connecting Pole
(1.10in.)

3 Upper & Lower Poles (2 Sets)

Upper Pole
(1.10in.)

One-Touch Fastening Device

Lower Pole
(1.26in.)

5 Shelf Brackets (4)

6 Adjustable Shelves (2 Sets)

- 1 set= 7rods

7 Rubber Rings (4)

8 Safety Bolts (2)

[Used for the one-touch fastening device]

4 Floor Mounts (2)

ASSEMBLY INSTRUCTIONS (POLE)

If the ceiling is low, assemble the parts to the upper and lower poles in order as shown in the diagram, without the upper connecting pole.

Pole 1

Pole 2

3

The rubber ring helps keep the fixtures in place and should be inserted underneath each rod bracket. (The rubber rings inserted underneath the rod brackets are not visible after installation.)

INSTALLATION (POLE)

To Install the Poles,

Explanation

- 1, 2 At the desired location, hold the lower pole with one hand and the upper pole with the other and push it up to the ceiling so that the pole is fixed upright to both the ceiling and the floor. (Make sure the pole is fixed securely on the ceiling by pushing the pole up as far as you can (which can extend up to 1 1/6 in. due to the spring mechanism in the ceiling mount).
- 3 After installing the pole, tighten the safety bolt behind the one-touch fastening device by hand for safer use of the unit.

4

ASSEMBLY INSTRUCTIONS (ADJUSTABLE SHELVING)

TO INSTALL ADJUSTABLE SHELVES,

Ex 1.

Fit the rods into the shelf bracket by pulling the ends of the rods downward until they snap into place. Insert the rods one side at a time. Alternate the rods when installing to enhance its strength.

*Product Dimensions

Width: 75-110cm
Height: 170-280cm
Depth: 35cm

1. Set the poles upright and distance them apart to the desired width of the shelving.
2. After keeping the shelf brackets level, fit the rods into the shelf bracket as shown in Ex. 1. Each shelf bracket is grooved to fit the rods tightly in place.
3. Adjust the height of the shelf bracket to the desired height using the rubber ring and then gently tighten the safety bolt in the back by hand.
